Weekend Parish Mass Attendance

52 Parishes/Hubs of which

39 are over 50

26 are over 100

13 are over 200

04 are over 300

There are 270 People attending Mass
for every Parochial Active Priest

The adjacent table details the distribution of people going to Sunday Mass across our 52 parishes.

But half of those (26) have less than 100 people attending mass every weekend.

Finally, the total diocesan mass attendance divided by the number of priests means we have One Priest to every 270 people attending Mass each weekend

Division of Clergy (75 years and under) based on Mass numbers

It is also important to recognise that a number of priests are in active service at ages when other people are reducing their workloads or for who it has been reduced for their wellbeing. Additionally, several retired priests generously offer their service as and when they feel able

The table directly below shows the current division of priests across the diocese of the various deaneries. The division is made on the basis of the number of buildings/parishes

This table shows what the distribution of priests would be based on numbers of people attending mass each weekend, based on 270 people per priest.
